Why Study the Word of God?

When you're fluent in a language, you use that language to express yourself and to communicate clearly with others in conversation.

A person who is fluent in the Bible is able to express ideas, converse with others, and put their learning into practice through the love-language that is the Word of God.

Bible Studies and Small Groups are just the beginning of our Biblical "language development" at Emmanuel!

Join us in becoming People of the Word!
